

Leif L. Richardson

Xerces Society for Invertebrate Conservation
4210 Highland Place
Riverside, CA 92506

(802) 793-6449
leif.richardson@xerces.org
www.leifrichardson.org

Current Appointment

Conservation Biologist, **Xerces Society for Invertebrate Conservation**, 2021-present

Education

- PhD **Dartmouth College**
Ecology and Evolutionary Biology, 2014
Thesis: *Bittersweet: tritrophic effects of nectar secondary metabolites on plants, pollinators, and parasites* (Advisor: R.E. Irwin)
- MS **University of Arizona**
Ecology and Evolutionary Biology, 1999
Thesis: *Community ecology of some manzanita species and their mutualist and antagonist flower visitors* (Advisor: J.L. Bronstein)
- BA **Earlham College**
Thesis: *Do non-rewarding floral mimics attract bee pollinators away from other spring ephemeral wildflowers?*
Biology (Honors), 1994

Additional Professional Experience

- 2017-2021 Senior Ecologist, Stone Environmental, Montpelier, VT
- 2017 Visiting Instructor, Middlebury College
- 2015-2017 Postdoctoral Research Fellow, Gund Institute for Environment, University of Vermont
- 2001-2010 State Lands Ecologist, Nongame and Natural Heritage Program, Vermont Fish and Wildlife Department
- 2009 Visiting Instructor, Middlebury College

Areas of Specialization and Interest

Ecology and conservation: plant-insect interactions; pollination; biological diversity; bees; bumble bees; chemical ecology; botany; agriculture; herbivory; mutualism; ecosystem services; climate change.

Grants & Awards

- 2017 Jean, R. and **L.L. Richardson**. US Fish and Wildlife Service Funding Opportunity F17AS00253. "Bumble bee inventory and bee habitat assessment at northeastern National Wildlife Refuges." (\$52,000)
- 2017 Hayden, J. and **L.L. Richardson**. United States Department of Agriculture National Institute of Food and Agriculture Specialty Crop Block Grant: "Establishing populations of ground-nesting native bees (*Colletes*) for orchard pollination services." (\$6,980)
- 2016 Alger, S., A. Burnham, **L.L. Richardson**, and Z. Lamas. Crowdfunded research grant: "Home sick: effects of migratory beekeeping on honey bee disease." (\$5,970) (www.experiment.com/projects/home-sick-effects-of-migratory-beekeeping-on-honey-bee-disease)
- 2016 **Richardson, L.L.**, J. Hayden, S. Alger, S. Waterman, and T.H. Ricketts. United States Department of Agriculture National Institute of Food and Agriculture Specialty Crop Block Grant: "Managing locally sourced native bees as alternative pollinators for Vermont specialty crops." (\$36,000)
- 2014 **Richardson, L.L.**, A.K. Brody, and T.H. Ricketts. United States Department of Agriculture National Institute of Food and Agriculture Postdoctoral Research Fellowship: "Multispecies interactions affect crop yield and pollinator health." (\$150,000)
- 2014 **Richardson, L.L.** Dartmouth Graduate Assistance in Areas of National Need (GAANN) Fellowship (\$40,000)
- 2013 **Richardson, L.L.** Dartmouth College Graduate Travel Award (\$1,000)
- 2012 **Richardson, L.L.** New England Botanical Club Graduate Research Award: "Toxic nectar in turtlehead (*Chelone glabra*): pollination by self-medicating bees." (\$1,000)

Books

Williams, P.H., R.W. Thorp, **L.L. Richardson**, and S.R. Colla. 2014. *Bumble bees of North America: an identification guide*. Princeton University Press. Princeton, NJ, USA. ISBN: 978-0-691-15222-6. 208 pp. (Recipient, 2014 *American Library Association's Outstanding Reference Source Award*.)

Databases

Richardson, L. L. 2021. Bumble bees of North America occurrence records database. www.leifrichardson/bbna.

A database aggregating >500,000 specimen and observation records for North American bumble bee species spanning 150 years of scientific collecting. The BBNA database is the best available record of where bumble bees occur in North America, and is commonly used in species status assessments by state/provincial and federal governments and their conservation partners.

Selected Consulting Work

Maine Bumble Bee Atlas/2016-present/Maine

Participate in all aspects of a community science project to inventory the bumble bees of Maine. Perform all specimen determinations and collaborate with program leaders to manage historic and recent collections data for the state. Inform state and regional conservation prioritization with project summaries.

Probabilistic Co-Occurrence Assessment for Endangered Species Act Consultation/2019-present/Vermont

Worked with an agrochemical industry partner to increase the scientific rigor of Endangered Species Act Section 7(a) consultation regarding regulated pesticides between EPA and the USFWS. Used Bayesian methods to assess likelihood of spatial overlap between listed species' ranges, including that of the rusty-patched bumble bee, and pesticide use areas.

Rusty-Patched Bumble Bee Survey/2017-2020/Massachusetts

Conducted bumble bee inventory surveys in a USFWS High Potential Zone for occurrence of this endangered species.

Development of a Tier II Bumble Bee Colony Feeding Field Study Methodology for Pesticide Risk Assessment/ 2020/Vermont

Worked with an industry partner to adapt honey bee pesticide risk assessment field methods (e.g. OECD Guidance Document 75) to colony feeding studies of the North American bumble bee species, *Bombus impatiens*.

A Semi-Field Greenhouse Tunnel Methodology for Estimating Pesticide Risk to North American Bumble Bees/2019/Vermont

Successfully adapted honey bee pesticide risk assessment field methods (e.g. OECD Guidance Document 75) to greenhouse/tunnel studies of the North American bumble bee species, *Bombus impatiens*. Measured impacts of dimethoate insecticide applied to flowers on bumble bee individual and colony health in 18 separate greenhouse enclosures.

Rusty-Patched Bumble Bee Survey/2019/Virginia and West Virginia

Conducted inventory surveys for a federally listed endangered bumble bee species to assess potential impact of the Atlantic Coast Pipeline project to this species. Discovered five new populations of the rusty-patched bumble bee in the Allegheny Mountains.

Bumble Bee Inventory and Habitat Assessment at Northeastern National Wildlife Refuges/2017-2018/Northeastern USA

Surveyed bumble bee species diversity and habitat quality at four northeastern National Wildlife Refuges.

Status Assessments for North American Bumble Bee Species/2018

Using the Bumble Bees of North America database, analyzed trends in distribution and abundance and revised global status ranks of 35 North American bumble bee species for NatureServe, a non-governmental organization that manages species occurrence data used for conservation decision-making and pesticide risk assessment.

Rusty-Patched Bumble Bee Habitat Stewardship/2017-2018/Iowa

Produced summary of known host plants, and analyzed suitability of pollinator seed mix product for endangered species. Modeled species distribution to evaluate Iowa sites for habitat stewardship work.

Vermont Bumble Bee Atlas/2012-2015/Vermont

Planned and implemented a three-year community science project to inventory the bumble bees of Vermont. Trained volunteers to collect and identify bumble bees. Made determinations of all specimens submitted by volunteers. Assembled a dataset of historic observations for the state, including identification and digitization of collections held by the University of Vermont. Detailed the project's results in a peer-reviewed publication, and used project data to petition the state's Endangered Species Committee to list four species rare in the state.

Teaching & Mentoring

Full Courses

Middlebury College, 2017

BIO 1002 Experimental Approaches to the Ecology and Conservation of Bees
Winter Term Visiting Instructor, designed curriculum; taught lab/ lecture

Middlebury College, 2009

BIO 1002 Bee Diversity and Ecology
Winter Term Visiting Instructor, designed curriculum; taught lab/ lecture

Teaching Assistantships

Dartmouth College, 2011-2014

BIO 16 Ecology (Dr. Rebecca Irwin)
BIO 23 Biology of Plants (Dr. Rebecca Irwin)
BIO 29 Biostatistics (Dr. Kathryn Cottingham)
ENVS 20 Conservation of Biodiversity (Drs. Douglas Bolger, Selena Ahmed)

University of Arizona, 1996-1999

ECOL 181 Introductory Biology (Dr. Michael Rosenzweig)

ECOL 206	Environmental Biology (Dr. William Calder)
ECOL 302	Ecology (Dr. Judith Bronstein)
ECOL 406	Conservation Biology (Dr. William Calder)
ECOL 472	Systematic Botany (Dr. Lucinda McDade)

Earlham College, 1994

BIOL 348	Ornithology (Dr. William Buskirk)
BIOL 350	Field Botany (Dr. Brent Smith)

Guest Lecturing**University of Vermont, 2016**

HCOL 186	Environmental Literature of the Anthropocene (Dr. Amy Seidl)
PSS 106	Entomology and Pest Management (Dr. Yolanda Chen)

Student Mentoring**Graduate**

York University: Victoria MacPhail (PhD student, 2016-present)
Antioch New England University: Caroline Scully (MS, 2010)

Undergraduate

University of Vermont: Jordyn Chace (Honors thesis research, 2016), Felix Holdorf (Independent study, 2016)
Johnson State College: Zacheriah Cota-Weaver (Independent study, 2016)
Marlboro College: Megan Stypulkoski (Thesis committee member, 2016)
Dartmouth College: Yu Zhu Mei (Women in Science Project, 2014), Alison Hogeboom (NSF Research Experience for Undergraduates Program, 2011)

High School

South Burlington High School: Lena Ginawi and Mia McKenzie; Effects of neonicotinoid pesticides on bumble bee longevity; 2016
Montpelier High School: Grace Valentine; managing mason bees and their habitats on a school campus; 2018-2020
